Sponsored by

[Ouachita Mountain Polymer Clay Guild](#)

In this two-day workshop Barb will teach her mokume gane layering technique. Custom colors and blended stacks of clay are created which achieve amazing depth and abstract designs. Each slice taken across the surface is a delight and a surprise.

Instruction includes adding translucent and pearlescent clays as well as well as using inclusions and metal leaf. Students will use their own selection of mokume gane slices which are then arranged into collage designs. Then learn Barb’s method of wavy freehand shape cutting.
